

Minuteman[®]
Excellence Meets Clean

2400 Series Burnisher
Dust Control Floor Burnisher

General Overview

- Available in 1500rpm, 2400rpm and variable –1500 to 2400 speed models
- 17" (1500 rpm only) and 20" models available to fit all your burnishing needs
- Available with patented PAMS® passive dust control
- Infinitely adjusting ergonomic handle
- Accordion style skirt contains all dust created while burnishing
- Excellent for all finished hard floor burnishing applications

Productivity

- PAMS® reduces the need for dust mopping and high level dusting considerably reducing total labor costs
- The center caster allows for 90% pad contact increasing burnishing productivity
- The patented Multi-Flex® pad driver helps eliminate pad growth increasing the time between pad changes reducing labor

Ease of Use

- The patented center cup assembly allows for quick and simple pad changes reducing operator fatigue
- The center caster and Multi-Flex® pad driver help eliminate the scalping of floors leaving a perfectly burnished floor every time
- The control handle is ergonomically designed to automatically adjust to the operator's height
- The PAMS® dust cup allows for quick cleaning eliminating the need to change or clean dirty bags

Key Features

- Available in 17" (1500 rpm only) and 20" models
- Available with Passive Air Management System (PAMS®) eliminating the need for dust mopping
- Multi-Flex® pad driver adjusts for uneven floors while retarding pad growth
- Patented center wheel allows for up to 90% pad contact while automatically adjusting for perfect pad pressure

Safety

- All 2400 series burnishers are equipped with a built in 20 amp thermal-overload breaker
- The 2400 series burnisher comes standard with a carbon brush indicator light that notifies the operator when preventative service is required
- All 2400 series come standard with a heavy duty 14 gauge 3 wire 50 foot power cord
- The operator handle is double insulated with dual safety interlock switches for operator safety
- A power-on light is incorporated in the handle so the operator knows when the machine has power
- The 2400 series machines all come with 6" non-marking rear wheels that incorporate zerk grease fittings for smooth operation
